## TxDOT Delays July Construction Projects

This week, the Texas Department of Transportation announced that they would delay all July projects been paid for by Proposition 14 bonds. According the Executive Director Amadeo Saenz, the department must first receive direction from the Texas Transportation Commission as to how to handle debt service for these bonds.

The commission may decide to add them to the August letting or let them at a later date. They will make the decision at the June Commission meeting, June 25, 2009.
