The committee reviews and recommends membership policies for Board approval, and provides the Association with guidance and goals to ensure the orderly growth of the Chapter's membership development. It also monitors membership activities to ensure conformity with committee precepts, proper administration and effective execution of approved programs. It evaluates advertising and promotional methods and materials of value to the Chapter for membership development, and makes this information known to the Board. The committee also informs the membership of services rendered by AGC and educates members on how AGC may better serve the needs of its members in the construction industry.
